*All clubs will be emailed when testing has been completed and Scorer 11 is available for release.*

*BridgeNZ (2004) Ltd  
26 November 2010*

# SCORER 11

---

## Overview of the 2011 release of Scorer

During this year, Scorer has undergone major changes in preparation for the next version. Scorer 11, is now being tested in preparation for release in 2011.

### During 2010

- **Bridge Club Subscriptions** were used for changes to software.
- **NZ Bridge** made a substantial contribution to the costs for changes required for the PABF and the National Congress – some of these changes will also benefit Bridge Clubs in New Zealand.
- **BridgeNZ** has contributed in excess of \$20,000 (we stopped counting!) to implement a MS SQLServer database which will allow for more flexibility, extra security, easier access to important data and smoother implementation of changes to software in future releases.

The result is an updated and professional package which will be of significant benefit for a club of any size.

BridgeNZ acknowledges all those who have supported this venture to this stage. Your input has made an impossible task possible. Thank you all.

**Scorer 11** will include the following additional features:

- Ability to modify sessions in the calendar
- Ability to change event type, eg from non handicap to handicap event
- Ability to create a custom teams movement with even or odd numbers of tables for
- Round Robin Teams
- Improved Swiss draw for Swiss Teams and Swiss Pairs
- Ability to put player names in by round for teams.
- Separate carry-over to adjustments
- NZ Bridge membership information updated from Web download
- Additional club administration reports available
- Reports available for club members showing rating points, masterpoints and official gradings
- Tournament entries have reports to sort entries by average rating points to assist with seeding
- Additional custom movements provided
- XML file produced from Pairs Sessions
- Option to directly ftp the XML file to a website\*\*\*

For existing subscribers, the subscription fee for 2011 will be \$200.00. If this is paid now, a paid invoice will be emailed and a new licence key sent out when Scorer 11 is ready for release.

We look forward to continued support for Scorer for 2011 which will allow for further features to be available in the following year.

If subscribing clubs require specific changes to the software for their club's particular need, please send specifications and a quote will be provided.

For further information please email [martino@bridgenz.co.nz](mailto:martino@bridgenz.co.nz)

### \*\*\*Additional Package Available For Hosting Club Results On the Web

For an additional charge, BridgeNZ will offer to host club results on the web for purchasers of Scorer 11.

Results shown can be:

1. The session results
2. Each player' s personal scores, complete with contract, lead, result, score and match points
3. The Travelling Score Sheet
4. The hand record for any given board (if hands have been generated using DealMaster Pro).

If a club has a dealing machine (which uses DealMaster Pro for generating hands) and BridgePads all these results will be displayed.

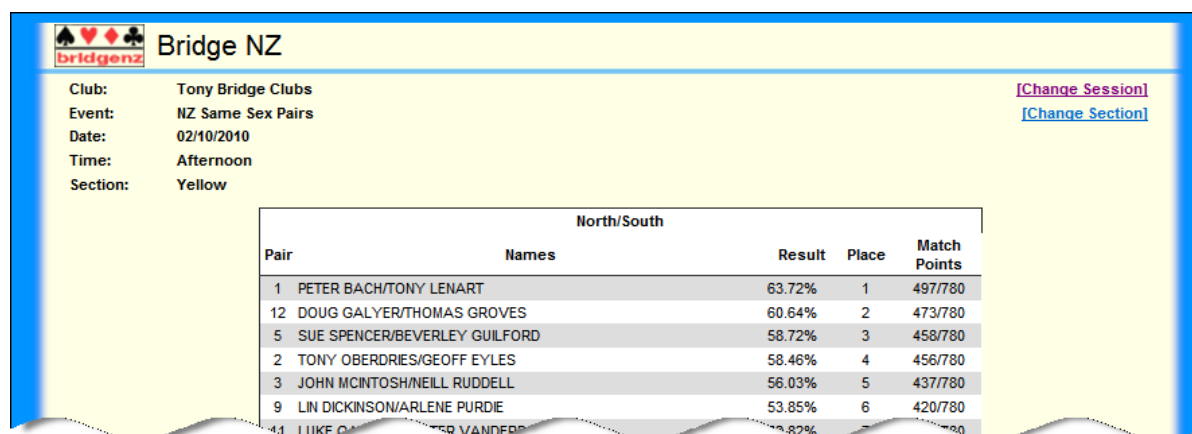

If a club has fewer resources, then less results will be shown, eg if a club has no dealing machine or BridgePads then the results will show:

1. The session results
2. Each player' s personal score sheet with scores and matchpoints
3. The Travelling Score Sheet

If a club has a dealing machine, then the results will also show the hand record if the hands have been generated using Deal Master Pro.

This will provide the most user friendly and powerful interface for players to get the maximum benefit from their club and tournament experiences. Results can be made available quickly and easily and without a high level of computer knowledge.

Here is a sample of the output

The screenshot shows a web interface for Bridge NZ. At the top left is the logo with four playing cards (spade, heart, diamond, club) and the text 'bridgenz'. To the right of the logo is the text 'Bridge NZ'. Below this, there is a list of tournament details: Club: Tony Bridge Clubs, Event: NZ Same Sex Pairs, Date: 02/10/2010, Time: Afternoon, and Section: Yellow. To the right of these details are two links: '[Change Session]' and '[Change Section]'. Below the details is a table with the following columns: Pair, Names, Result, Place, and Match Points. The table contains the following data:

Pair	Names	Result	Place	Match Points
1	PETER BACH/TONY LENART	63.72%	1	497/780
12	DOUG GALYER/THOMAS GROVES	60.64%	2	473/780
5	SUE SPENCER/BEVERLEY GUILFORD	58.72%	3	458/780
2	TONY OBERDRIES/GEOFF EYLES	58.46%	4	456/780
3	JOHN MCINTOSH/NEILL RUDELL	56.03%	5	437/780
9	LIN DICKINSON/ARLENE PURDIE	53.85%	6	420/780
4	LUKE CAMPBELL/PETER VANDER...	53.82%	7	418/780

Output generated from NZ Scorer

BridgeNZ will advise when a demonstration version is available on the website <http://bridgenz.co.nz/>  
 We encourage all clubs and players to use it and see for themselves what this is capable of.

This package is modern and professional and our thanks go to David Stephen of Christchurch for his support. Thank you David.
